## A NEW DAY, A NEW MASTERPIECE

Some may see tradespeople — but at Goldblatt Tools, we see artists. Masters who work in concrete and mortar, paint and joint compound, dust and sweat. Channeling years of practice into every sweeping stroke and subtle movement, they can make a complicated project look deceptively simple.

You watch them work and you become inspired.

At Goldblatt Tools, we understand that inspiration. For more than 125 years, it has moved us to provide the finest hand-tools to meet the demands of master craftsmen as well as inspired homeowners.

There's a new attitude and confidence at Goldblatt Tools. You'll find it reflected in our new look and in every product we design, manufacture, and sell. You'll also find it in our exclusive Professional Performance Guarantee — because we believe putting a Goldblatt tool in your hand is the same as shaking ours.

Welcome to a new level of performance.  
Welcome to the new Goldblatt Tools.
