# PROVIDING TRADESPEOPLE WITH GREAT TOOLS SINCE 1885

---

Henry Goldblatt dreamed of creating a successful business, and his entrepreneurial spirit brought him from Russia to America. At age 30, he founded the H. Goldblatt Tool Company in the booming frontier town of Kansas City, Missouri. Henry decided to start a tool catalog to promote his business and get his name out there. It worked. By the 1920s, Goldblatt was a leading manufacturer and distributor of tools from the eastern shores of the United States all the way to the mountains of the west.

Part of what made Henry Goldblatt successful was his desire to work with tradespeople to understand their needs and the challenges they faced on the job. He used this knowledge to create high-quality products that made work easier for them at fair and honest prices.

## OUR TIRELESS FOCUS ON QUALITY AND INNOVATION

---

We're carrying on Henry's legacy by committing to quality, innovation, and customer satisfaction each and every day we go to work. Today, in more than 100 countries worldwide, Goldblatt provides high-quality tools and products for concrete, masonry, tile, drywall, and paintwork. We firmly believe that tradespeople deserve the best tools for building, and that these tools should be fairly and affordably priced. If at any point a Goldblatt tool doesn't meet a customer's expectations, our Goldblatt Guarantee means we'll offer a replacement or a refund – no questions asked.

**Henry would be proud of how we've stuck to our roots, and how far we've come.**

## **TILE TOOLS**

You don't compromise on grout lines, and we don't compromise on our Goldblatt tile tools. Because tiling requires patience, precision, and skill – as well as high-quality tools that can be trusted to get the job done right. Whether you're working on a kitchen backsplash or a bathroom remodel, our collection of tile tools will help you do work that both you and your clients will be proud of.

## Pro Stainless Steel Notch Trowel

Our pro stainless steel notch trowel features a mirror-polished, rust-resistant stainless steel blade that's been hardened and tempered for premium durability. The aluminum alloy mounting is extremely strong yet lightweight for ease of use.

- Ergonomic soft-grip handle reduces fatigue
- Blade size is 11 x 4 1/2 in.

MODEL NO.	NOTCH SIZE (IN.)	HANDLE	NOTCH STYLE
G02411	1/8 x 1/8 x 1/8	Red / Soft Grip	Square 
G02413	1/4 x 1/4 x 1/4	Red / Soft Grip	Square 
G02414	1/4 x 3/8 x 1/4	Red / Soft Grip	Square 
G02379	3/8 x 3/8 x 3/8	Red / Soft Grip	Square 
G02416	1/2 x 1/2 x 1/2	Red / Soft Grip	Square 
G02383	1/4 x 1/4 x 1/4	Red / Soft Grip	U 
G02384	1/4 x 3/8 x 1/4	Red / Soft Grip	U 
G02385	1/2 x 1/2 x 1/2	Red / Soft Grip	U 
G02422	3/4 x 9/16 x 3/8	Red / Soft Grip	U 
G02423	3/16 x 5/32	Red / Soft Grip	V 
G02424	1/4 x 3/16	Red / Soft Grip	V 
G02365	1/2 x 1/2	Red / Soft Grip	V 

## Pro XL Stainless Steel Notch Trowel

Use our pro XL stainless steel notch trowel with a 16 x 4 in. mirror-polished, rust-resistant stainless steel blade to get the job done right. The aluminum alloy mounting is lightweight yet durable for maximum reliability.

- Hardened, tempered blade
- Anti-turn soft-grip or hardwood handle

MODEL NO.	NOTCH SIZE (IN.)	HANDLE	NOTCH STYLE
G02046	1/4 x 1/4 x 1/4	Red / Soft Grip	Square 
G02049	1/4 x 3/8 x 1/4	Red / Soft Grip	Square 
G02047	1/2 x 1/2 x 1/2	Red / Soft Grip	Square 
G02137	1/2 x 1/2	Red / Soft Grip	V 
G02050	3/4 x 9/16 x 3/4	Tan / Wood	U 

## Pro Notched Margin Trowel

Our pro notched margin trowel is the perfect size for patching, reaching tough spots, and spreading thinset. The high-grade steel blade is heat treated and tempered for long-lasting durability.

- Ergonomic nonslip soft-grip handle

MODEL NO.	NOTCH SIZE (IN.)	HANDLE	NOTCH STYLE
G02052	1/4 x 1/4 x 1/4	Red / Soft Grip	Square 
G02762	1/4 x 3/8 x 1/4	Red / Soft Grip	Square 
G02053	1/4 x 1/4 x 1/4	Tan / Wood	Square 

## Pro Carbon Steel Notch Trowel

Our pro carbon steel notch trowel is constructed of hardened, tempered high-carbon steel to provide years of service. The anti-turn camelback hardwood handle is designed for comfort and durability.

- Aluminum alloy mounting is extremely strong yet lightweight
- Blade size is 11 x 4 1/2 in.

G02381	1/4 x 3/8 x 1/4	Tan / Wood	U 
G02382	1/2 x 1/2 x 1/2	Tan / Wood	U 
G02474	1/4 x 3/16	Tan / Wood	V 
G02475	1/4 x 1/4	Tan / Wood	V 
G02473	3/16 x 5/32	Tan / Wood	V 
G02360	1/2 x 1/2	Tan / Wood	V 

## Pro Gum Rubber Grout Float

Our nonstick pro gum rubber grout float ensures a smooth application. This float features two rounded corners, which prevent gouging of ground joints, and two squared corners to ensure even coverage when working 90-degree corners.

- Heavy-duty plastic backing plate for strength and durability
- Large ergonomic soft-grip handle

MODEL NO.	SIZE (IN.)
G02370	9 1/2 x 4
G02723	12 x 4

## Gum Rubber Grout Float

Our gum rubber grout float has two rounded corners to prevent gouging of ground joints and two squared corners to ensure even coverage when working 90-degree corners. Constructed from nonstick gum rubber with a sturdy aluminum backing plate.

- Large ergonomic hardwood handle

MODEL NO.	SIZE (IN.)
G02721	9 1/2 x 4
G02758	12 x 4
G02035	12 x 3

## Margin Grout Float

Our margin grout float is the ideal tool for small jobs like mosaics, countertops, backsplashes, and any hard-to-reach areas. The nonstick gum rubber pad ensures a smooth application every time.

- Ergonomic nonslip soft-grip handle

MODEL NO.	SIZE (IN.)	HANDLE
G02368	6 x 2	Red / Soft Grip

## Pro Epoxy Grout Float

Our pro epoxy grout float features a high-density green gum rubber pad with two rounded corners to prevent gouging of grout joints and two square corners for spreading grout evenly into corners.

- Heavy-duty plastic backing plate for strength and durability
- Large ergonomic soft-grip handle ensures comfort all day

MODEL NO.	SIZE (IN.)
G02371	9 1/2 x 4

## Epoxy Margin Float

Our epoxy margin float is constructed of high-density green gum rubber and is the ideal tool to spread epoxy when working in small, tight areas.

- Comfortable soft-grip handle with finger guard

MODEL NO.	SIZE (IN.)	HANDLE
G02761	6 x 2	Red / Soft Grip

## Pro Compound Tile Nippers

The high-leverage design of our pro compound tile nippers delivers twice the power of conventional nippers to cut through tile quickly and easily. The long-lasting tungsten tips can be used to make irregular cuts on all types of tile and stone.

- Ergonomic anti-slip soft-grip handle

MODEL NO.	DESCRIPTION
G02009	Pro compound tile nippers

## Pro Tile Nippers

Use our pro tile nippers with durable tungsten tips to make irregular cuts on ceramic and marble tile. Drop-forged steel construction means you'll have this tool in your kit for years to come.

- Ergonomic anti-slip soft-grip handle

MODEL NO.	DESCRIPTION
G02008	Pro tile nippers

## Pro Glass Tile Nippers

Our glass tile nippers are the perfect tool to quickly and easily cut precise shapes in glass tile up to 1/4 in. thick. Trim glass tile to fit around pipes, cabinets, and walls, or create eye-catching glass mosaics.

- Drop-forged steel construction
- Ergonomic anti-slip soft-grip handle

MODEL NO.	DESCRIPTION
G02007	Pro glass tile nippers

REPLACEMENT BLADE	DESCRIPTION
G02757	2 pack replacement tile scoring wheels

## Pro Handheld Tile Cutters/Pliers

Use our pro handheld tile cutters/pliers to make any job faster and easier. Simply score ceramic tile with the replaceable wheel, then break the tile with the strong, sturdy plastic breaker bar.

- Drop-forged steel construction
- Ergonomic anti-slip soft-grip handle

MODEL NO.	DESCRIPTION
G02010	Handheld tile cutter
G02718	1/2 in. ceramic tile scoring wheel

## Handheld Tile Saw

Our handheld tile saw is the only portable wet saw you need to cut through tile, stone, brick, and marble with ease, and the ergonomic grip helps your hand stay comfortable on longer jobs. Up to 14,500 rotations per minute (RPM) and a maximum cutting depth of 1 5/32 in. for precise, consistent cuts.

- GFCI cord
- Lock-on switch
- Durable water tubing, valve lever, nozzle, and pressure regulator
- Depth and bevel adjustment knobs
- Cutting guide

MODEL NO.	G09601
POWER	120 V, 60 Hz, 10 A
BLADE SPEED	14,500 RPM
BLADE SIZE	4 x 5/8 in.
BEVEL CUT ANGLE RANGE	0°–45°
MAX CUTTING DEPTH	1 5/32 in. at 90° / 3/4 in. at 45°

## 6 in. Rod Saw

Our 6 in. rod saw allows you to easily cut smooth curves into ceramic tile, stone, and marble. The rugged diamond-coated rod saw blade can also be used to cut through metal, glass, and fiberglass.

- Kit includes 6 in. tungsten carbide blade and carbide tipped drill bit
- Ergonomic anti-slip soft-grip handle

MODEL NO.	DESCRIPTION
G02001	Carbide rod saw
REPLACEMENT BLADE	
G02003	6 in. rod saw blade

## Pro Tile Grout Saw

Our pro tile grout saw comes equipped with two carbide grit-edge blades to make stripping, cleaning, and removing old grout fast and easy. The high-leverage handle is contoured and offset to fit perfectly in your hand.

- Ergonomic anti-slip soft-grip handle

MODEL NO.
G02738

## Reciprocating Grout Saw Blade

Attach our reciprocating grout saw blade to any reciprocating saw for quick and easy grout removal. The two rugged carbide grit-edge blades will last through countless jobs.

MODEL NO.	DESCRIPTION
G02738	Pro tile grout saw
REPLACEMENT BLADE	
G02154	Reciprocating grout saw blade
G02739	2 pack reciprocating grout saw blades

## Grout Saw

Our versatile grout saw comes with two blades – one long-lasting carbide grit-edge blade, and one serrated blade. Attach one blade for narrow grout lines or both for wide grout lines.

- Ergonomic anti-slip soft-grip handle

MODEL NO.	DESCRIPTION
G02036	Grout saw replacement blade
REPLACEMENT BLADE	
G02037	2 pack grout saw blades

## Tile Leveling System

Our tile leveling system – which includes rugged forged-steel pliers – helps you create perfectly level floors and walls every time. The pliers are designed with a soft-grip handle for all-day comfort.

- System includes clips (A), wedges (B), and pliers (C)
- For tiles between 3/16 in. and 7/16 in. thick
- Provides narrow 1/16 in. grout line

MODEL NO.	DESCRIPTION	QUANTITY
G02158	Clips A	250
G02159	Wedges B	250
G02160	Pliers C	1

## 2-in-1 Pro Tile Spacers

Our 2-in-1 pro tile spacers are the best choice for any tile job. They sit on top of the tile for fast and easy installation and removal, and have a double-sided design that features different sizing on each side.

- See-through material provides accurate tile alignment

MODEL NO.	SIZE (IN.)	QUANTITY
G02333	1/16 x 3/16	250
G02332	1/8 x 1/4	250
T SPACER		
G02331	1/16 x 3/16	250
G02330	1/8 x 1/4	250

## Hard Plastic Tile Spacers

Our hard plastic tile spacers save you time thanks to their leave-in design that also helps prevent cracks in finished grout. Plus, they're color-coded to easily recognize different sizes.

- Helps evenly space and align wall and floor tiles
- Contractor pack comes in resealable container

MODEL NO.	SIZE (IN.)	QUANTITY
HARD PLASTIC		
G02334	1/16	250
G02335	1/16	1,000
G02339	3/16	250
G02340	3/16	1,000
G02336	1/8	250
G02337	1/8	500
G02338	1/8	1,000
G02386	1/4	500
G02387	3/8	500
LEAVE-IN		
G02342	1/4	500
G02343	3/8	500

## Horseshoe Tile Spacers

Our horseshoe tile spacers are the ideal choice for spacing and aligning tile and stone, whether you're creating a vertical or horizontal installation. The injection-molded construction makes these spacers strong and able to withstand heavy loads.

- Color-coded to easily recognize different sizes
- Shims are reusable and come in a convenient plastic storage container

MODEL NO.	SIZE (IN.)	QUANTITY
G02345	1/16	250
G02346	1/16	1,000
G02347	1/8	250
G02348	1/8	500
G02349	1/8	1,000
G02350	3/16	250
G02139	3/16	500
G02352	1/4	250
G02353	1/4	500
G02354	3/8	250
G02389	1/2	250

## Stainless Steel Spacer Remover

Our stainless steel spacer remover is constructed with a curved heavy-gauge stainless steel blade to easily remove tile spacers prior to grouting. The non-scuff rubber bumper acts as a fulcrum to help you work faster, and protects tile edges from damage.

- Ergonomic soft-grip handle reduces fatigue

**MODEL NO.**

G02038

## 4 in. Wall Scraper with Five Blades

Choose our 4 in. wall scraper to quickly scrape subfloors and easily remove wallpaper, grout, and paint. The cast-aluminum head and heavy-gauge steel shaft mean you can rely on this scraper to perform for years to come.

- Ergonomic anti-slip handle for comfort grip
- Comes complete with five wall scraper blades

**MODEL NO.**

G02730

**DESCRIPTION**

4 in. wall scraper

**REPLACEMENT BLADE**

G02733

5 pack wall scraper blades

## Cement Board Screws

Our cement board screws feature Ruspert® coating to protect against rust and corrosion. The deep high-low threads ensure quick entry and provide maximum holding power.

- Ideal for attaching cement board to wood and light-gauge steel studs

MODEL NO.	SIZE (IN.)	QUANTITY
G02313	1/4	200
G02316	1/4	800
G02314	5/8	150
G02315	5/8	600

## Pro Tile and Grout Brush

Our pro tile and grout brush features extra-strong tapered nylon bristles that cut deep into grout joints to remove mold and mildew. The angled soft-grip handle helps you deliver maximum scrubbing power.

- Resistant to stain and odors
- Can be used in wet or dry conditions

MODEL NO.	DESCRIPTION
G02045	Pro tile and grout brush

## Alkali-Resistant Cement Board Tape

Our alkali-resistant cement board tape won't tear, is shrink resistant, and will deliver long-term performance. The fiberglass mesh tape is self-adhesive to help decrease application time.

- 2 in. width
- Works in dry and thinset mortars

MODEL NO.	SIZE (FT.)
G02317	300
G02041	50

## Grout Sponge

Our premium grout sponge is the perfect choice for quick and easy grouting and cleanup. Unique hydrophilic properties give this sponge a high water-holding capacity, so you can get the job done right.

MODEL NO.	SIZE (IN.)	QUANTITY
G02090	7 1/2 x 5 1/2 x 2	1
G02359	7 1/2 x 5 1/2 x 6	3

## Grout Cleanup Sponge

Our premium dual-purpose grout cleanup sponge features two surfaces – a standard side for cleaning and a coarse side for scrubbing. The sponge’s hydrophilic properties allow it to hold a large amount of water to help make your job easier.

MODEL NO.	SIZE (IN.)	QUANTITY
G02089	7 1/2 x 5 1/2 x 2	1
G02900	7 1/2 x 5 1/2 x 6	3

## Contour Gauge

Our contour gauge expertly traces shapes for precise marking, letting you easily transfer a mirror image of irregular shapes to tile and other surfaces for a perfect fit.

- Lightweight plastic construction

MODEL NO.	DESCRIPTION
G02102	Contour gauge

## China Markers

Use our china markers for water-resistant marking on tile, glass, marble, porcelain, granite, and more. The tear string makes sharpening quick and easy.

- Three per pack: red (1), black (1), and yellow (1)

MODEL NO.	DESCRIPTION
G02745	3 pack; black, red, yellow china markers

## Grout Bag

Our high-strength fabric-backed vinyl grout bag holds and dispenses the perfect amount of grout or mortar – and it's easy to clean. The molded-in tip can be cut to any size opening you need to create perfect grout lines.

MODEL NO.
G02744

## **MASONRY TOOLS**

It takes a skilled hand to master mortar. And masonry professionals have long trusted Goldblatt tools to help them do their best work. As the maker of America's first trowel, Goldblatt has played a part in the construction of our country for decades. Whether you're building a beautiful facade or laying a brick pathway, reach for our collection of masonry tools to get the job done right.

## Pro Philadelphia Brick Trowel

Our pro Philadelphia brick trowel features a one-piece drop-forged blade that ensures long-lasting durability and premium performance. This trowel is the ideal tool for laying block because it's designed to hold more mortar than a London trowel.

- Precisely taper-ground blade for perfect balance and flexibility
- Comfortable soft-grip handle with finger guard and mallet-function end

MODEL NO.	SIZE (IN.)	HANDLE
G06973	11 1/2 x 5 3/4	Red / Soft Grip

## Pro Pointing Trowel

Our pro pointing trowel is designed for scraping, digging, and repair work, and is constructed from a single piece of high-grade tool steel for lifelong performance.

- Precisely taper-ground blade for perfect balance and flexibility
- Comfortable soft-grip handle with finger guard

MODEL NO.	SIZE (IN.)	HANDLE
G06976	7 x 3	Red / Soft Grip
G06977	5 x 2 1/2	Red / Soft Grip

## Pro Margin Trowel

Our pro margin trowel is your best choice for patch jobs, hard-to-reach areas, and spreading thinset. The one-piece drop-forged blade offers the highest level of strength and durability.

- Precisely taper-ground blade for perfect balance and flexibility
- Comfortable soft-grip handle with finger guard

MODEL NO.	SIZE (IN.)	HANDLE
G06981	6 x 2	Red / Soft Grip
G06982	5 x 2	Red / Soft Grip

## Pro Tuck Pointing Trowel

Our pro tuck pointing trowel is designed to make tight mortar jobs quicker and easier. The trowel blade is forged from a single piece of high-grade tool steel, so you'll have this premium tool for years to come.

- Precisely taper-ground blade for perfect balance and flexibility
- Comfortable soft-grip handle with finger guard

MODEL NO.	SIZE (IN.)	HANDLE
G01685	5/8 x 6 3/4	Red / Soft Grip
G06985	1/2 x 6 3/4	Red / Soft Grip
G06986	3/8 x 6 3/4	Red / Soft Grip
G01679	1/4 x 6 3/4	Red / Soft Grip
G01678	3/16 x 6 3/4	Red / Soft Grip

## Pro London Brick Trowel

Our pro London brick trowel is the best choice for applying mortar between layers of brick, stone, and concrete block. The trowel blade is forged from a single piece of high-grade tool steel, so you can depend on its premium performance for life.

- Precisely taper-ground blade for perfect balance and flexibility
- Comfortable soft-grip handle with finger guard and mallet-function end

MODEL NO.	SIZE (IN.)	HANDLE
G01689	12 x 5 1/8	Red / Soft Grip
G06972	11 1/2 x 5	Red / Soft Grip
G01691	11 x 4 7/8	Red / Soft Grip
G01690	10 x 4 5/8	Red / Soft Grip

## Philadelphia Trowel

Our Philadelphia trowel is the right choice for laying block because the sturdy carbon-steel blade is designed to hold more mortar than a London trowel.

- Precisely taper-ground blade for perfect balance and flexibility
- High-strength two-piece welded blade

MODEL NO.	SIZE (IN.)	HANDLE
G06114	11 1/2 x 5 3/4	Tan / Wood
G01651	11 x 5 1/2	Red / Soft Grip
G06021	11 x 5 1/2	Tan / Wood

## Pointing Trowel

Our pointing trowel is perfect for patching cracks and shaping joints in brick, stone, and concrete block, and is available with either our comfortable soft-grip handle or our contoured hardwood handle.

- Precisely taper-ground blade for perfect balance and flexibility
- High-strength two-piece welded blade

MODEL NO.	SIZE (IN.)	HANDLE
G09348	7 x 3	Red / Soft Grip
G09323	7 x 3	Tan / Wood
G02728	5 1/2 x 2 3/4	Red / Soft Grip
G06023	5 1/2 x 2 3/4	Tan / Wood

## Margin Trowel

Choose our margin trowel for patch jobs, hard-to-reach areas, and spreading thinset. The high-carbon-steel blade is heat treated and tempered for superior strength.

- High-strength two-piece welded blade
- Available with comfortable soft-grip or contoured hardwood handle

MODEL NO.	SIZE (IN.)	HANDLE
G09336	6 x 2	Red / Soft Grip
G02727	5 x 2	Red / Soft Grip
G06983	5 x 2	Tan / Wood

## Narrow London Trowel

Our narrow London trowel is ideal for applying mortar between layers of brick, stone, and concrete block. The high-strength two-piece welded blade is taper ground for proper balance and flexibility.

- Constructed of heat-treated and tempered high-carbon steel
- Available with soft-grip or hardwood handle

MODEL NO.	SIZE (IN.)	HANDLE
G01622	12 x 5 1/8	Red / Soft Grip
G06016	11 1/2 x 5	Tan / Wood
G01620	11 x 4 7/8	Red / Soft Grip
G01618	10 x 4 5/8	Red / Soft Grip

## Gauging Trowel

Our gauging trowel is constructed of high-grade tool steel for long-lasting durability and strength. Choose this tool for a variety of jobs, including mixing or “gauging” small amounts of mortar or quick-setting plaster.

- Precisely taper-ground blade for perfect balance and flexibility
- High-strength welded blade

MODEL NO.	SIZE (IN.)
G09349	7 x 3 3/8

## Cross Joint Trowel

The high-carbon-steel blade of our cross joint trowel makes it the ideal tool for numerous professionals, from cement finishers, brick masons, and asphalt pavers, to tile setters, plasterers, and drywall craftspeople.

- Precisely taper-ground blade for perfect balance and flexibility
- High-strength two-piece welded blade

MODEL NO.	SIZE (IN.)
G09354	4 3/4 x 1 3/4

## Buttering Trowel

Our buttering trowel is designed to help you create the perfect surface when finishing mortar or concrete. The blade is carefully taper ground for the ultimate in flexibility and balance.

- High-strength two-piece welded blade
- Ergonomic hardwood handle

MODEL NO.	SIZE (IN.)
G09341	7 x 4 3/8

## Aluminum Hawk

Our aluminum hawk is designed with a grain finish and circular grooves to prevent material from sliding, so jobs go more quickly and smoothly. Constructed of tempered heavy-gauge hard-rolled aluminum with smooth edges and round corners to prevent injury.

- Sponge-rubber callus preventer included

MODEL NO.	SIZE (IN.)	HANDLE
G05031	13 x 13	Red / Soft Grip

## Brick Hammer

The exceptionally well-balanced design of our brick hammer includes a larger hammer face and a wider blade to meet the demands of the toughest jobs.

- Drop-forged from high-grade tool steel
- Extra-large contoured hardwood handle

MODEL NO.	WEIGHT (OZ.)
G06993	20

## Bucket Trowel

Our popular bucket trowel helps you pick up and spread mortar quickly and easily, with a precisely taper-ground blade for superior balance and flexibility.

- Diagonally cut blade for easy use in a mortar box or bucket
- High-strength two-piece welded blade

MODEL NO.	SIZE (IN.)
G01126	7 1/2

## Skate Wheel Joint Raker

Our durable skate wheel joint raker includes specially hardened large-diameter wheels and an easy-grip handle to make removing extra mortar fast and easy. The hardened nail is adjustable to achieve various depths.

- Overall width: 3 in.
- Aluminum handle: 8 1/2 in.

MODEL NO.
G01210

## Grout Bag

Easily hold and dispense grout or mortar with our rugged grout bag, which is constructed of high-strength fabric-backed vinyl. The removable metal tip makes using and cleaning the bag effortless.

- Metal tip: 3/8 in.

MODEL NO.	SIZE (IN.)
G06992	23 1/2 x 14

## Rub Brick

Use our fluted silicon carbide stone rub brick for dressing down concrete and newly cut tile, or for removing marks. The contoured soft-grip handle increases comfort and minimizes fatigue.

- 20-grit brick

MODEL NO.	SIZE (IN.)	GRIT / TYPE
G06956	6 x 3 x 1	20 / Fluted
G06168	8 x 3 1/2 x 1 1/2	20 / Fluted

## Masonry Brush

Our multipurpose masonry brush with long-wearing plastic bristles can be used for any job, from masonry and brick to tile and stone.

- Hardwood block and handle

**MODEL NO.**

G06989

## Brick Tongs

Our professional-grade brick tongs are easy to use, and they adjust to carry between 6 and 11 bricks at once, saving you time and labor. Made of a lightweight-yet-rugged metal alloy that won't damage bricks.

- Heavy-duty construction

**MODEL NO.**

G11280

## Adjustable Aluminum Line Stretchers

Use our adjustable aluminum line stretchers to achieve the perfect line for laying masonry courses. Our line stretchers work on blocks from 4 in. to 12 in. – just loosen the wing nuts and move the bolts to adjust.

- Packaged in pairs
- Constructed of quality cast aluminum

**MODEL NO.**

G01248

## Convex Brick Jointer

Our rugged convex brick jointer is smooth finished and well balanced, so it's easy to use and creates perfect half-round sunken or rodded joints. Each end of our jointer creates a different-sized joint, helping you carry fewer tools in your bag.

- Hard tempered for extra durability

MODEL NO.	END SIZES (IN.)
G01165	7/8 and 3/4
G01162	3/4 and 5/8
G06988	5/8 and 1/2
G06987	1/2 and 3/8

## Nylon Mason Line

Our #18 nylon mason line has built-in elasticity, so it maintains tension and eliminates sagging. Abrasion- and alkali-resistant, the four solid bright colors of our nylon mason line make it easy to see, so you can create perfectly level masonry work.

- Braided line tested up to 120 lb.
- Twisted line tested up to 90 lb.
- Choose from four colors

MODEL NO.	COLOR	TYPE
<b>250 FT.</b>

## Wood Line Block Pair

Our wood line blocks are made of select hardwood to last longer. Use with our nylon mason line to get perfect guidelines on every job.

- Sold in pairs

MODEL NO.	SIZE (IN.)
G06991	5 1/2 x 1 x 1

# CONCRETE TOOLS

Great concrete work starts with Goldblatt concrete tools. All our tools are made using high-quality materials that can withstand the rigors of the jobsite and help you build with pride. Whether you're finishing a sidewalk or laying a foundation, our concrete tools will help you get every concrete job done the way you envisioned. Pick one up today and see why Goldblatt tools have earned the trust of those who have mastered the trade.

## Pro Finishing Trowel

The durable stainless steel blade of our pro finishing trowel provides a premium finish with no aggregate popping, so pros and DIYers can be more productive. Stainless steel rivets ensure a stronger connection to the blade than typical welding bolts.

- Hardened, tempered stainless steel blade
- Anti-turn ergonomic soft-grip handle
- Lightweight aluminum alloy mounting

MODEL NO.	SIZE (IN.)	HANDLE
G06941	20 x 4	Red / Soft Grip
G06942	18 x 4	Red / Soft Grip
G06943	16 x 4	Red / Soft Grip
G06944	14 x 4	Red / Soft Grip
G06113	12 x 4	Red / Soft Grip

## Pro Stainless Steel Pool Trowel

The shorter shank and anti-turn ergonomic soft-grip handle of our pro stainless steel pool trowel help make finishing pools of any radius quicker and easier. The stainless steel blade has rounded edges to prevent gouging, while the riveted aluminum alloy mounting delivers high strength and durability.

- Flexible stainless steel blade
- Anti-turn ergonomic soft-grip handle

MODEL NO.	SIZE (IN.)	HANDLE
G06946	16 x 4 1/2	Red / Soft Grip
G06222	14 x 4	Red / Soft Grip

## Pro Plaster Trowel

The flat blade and ergonomic handle of our pro plaster trowel help you achieve a consistent finish quickly and easily. The riveted aluminum mounting is lightweight to reduce fatigue, yet it offers high strength and durability.

- Hardened, tempered stainless steel blade
- Stainless steel rivets

MODEL NO.	SIZE (IN.)	HANDLE
G03463	12 x 5	Red / Soft Grip

## Pro Mini Trowel

Tough-to-reach jobs are no match for our pro mini trowel. Keep one on hand at all times to tackle window sills, closets, and other small areas.

- Cross-ground and edge-ground blade is preshaped for ready use
- Hardened, tempered stainless steel blade
- Anti-turn ergonomic soft-grip handle

MODEL NO.	SIZE (IN.)	HANDLE
G06945	8 x 3	Red / Soft Grip

## Finishing Trowel

Whether you select our hardwood-handle spring steel or soft-grip-handle stainless steel finishing trowel, you've chosen the ideal tool for finishing concrete with ease. Both offer durable high-grade tool steel blades, aluminum alloy mounting that's light but strong, and anti-turn ergonomic handles.

- Cross-ground and edge-ground blade is preshaped for ready use
- Stainless steel rivets
- Available in spring steel and stainless steel

MODEL NO.	SIZE (IN.)	HANDLE
<b>SPRING STEEL</b>		
G06531	20 x 4	Tan / Wood
G06527	18 x 4	Tan / Wood
G06948	16 x 4	Tan / Wood
G06949	14 x 4	Tan / Wood
G06512	12 x 4	Tan / Wood
G03407	8 x 3	Tan / Wood
<b>STAINLESS STEEL</b>		
G02048	16 x 4	Red / Soft Grip

## Pool Trowel

Our ergonomic hardwood-handle pool trowel has a short shank, so you can bend it to finish the radius of nearly any pool. The rounded edges of the hardened, tempered stainless steel blade prevent gouging, making it easier than ever to create the perfect finish.

- Lightweight aluminum alloy mounting
- Stainless steel rivets
- Available in stainless steel or blue steel

MODEL NO.	SIZE (IN.)	HANDLE
<b>STAINLESS STEEL</b>		
G06179	16 x 4	Tan / Wood
G06177	14 x 4	Tan / Wood
G06176	12 x 4	Tan / Wood
G06174	10 x 4	Tan / Wood
<b>BLUE STEEL</b>		
G06104	16 x 4	Tan / Wood
G06103	14 x 4	Tan / Wood

## Bronze Groover

Our durable bronze groover includes a high-quality, long-wearing cast-bronze blade. The weight of this tool helps create crisp, sharp grooves with a lot less effort.

- Hand-polished, smooth bronze blade
- Comfortable soft-grip handle with finger guard

MODEL NO.	SIZE (IN.)	R (IN.)	W (IN.)	D (IN.)
G06301	6 x 4 1/2	1/4	5/8	3/4

## Stainless Steel Groover

Our stainless steel groover includes a properly shaped bit and leading edge to cut sharp grooves. Plus, it's long wearing, easy to clean, and designed without rivets – so it won't mar the surface.

- Comfortable soft-grip handle with finger guard
- Heavy-gauge stainless steel

MODEL NO.	SIZE (IN.)	R (IN.)	W (IN.)	D (IN.)
G06200	6 x 3	1/4	1/2	1/2
G06954	6 x 4	1/4	3/8	3/8

## Stainless Steel Edger

Our stainless steel edger helps you create smooth, rounded edges on concrete to prevent chipping. It's also long wearing and easy to clean to make the job even easier.

- Comfortable soft-grip handle with finger guard
- Heavy-gauge stainless steel

MODEL NO.	SIZE (IN.)	R (IN.)	W (IN.)	D (IN.)
G06235	6 x 3	1/4	1/4	3/8
G06953	6 x 3	1/4	3/8	3/8

## Aluminum Concrete Placer

Our aluminum concrete placer is lightweight and durable, making it the ideal tool for pushing and pulling concrete into place. The anti-slip powder-coated handle ensures a reliable grip, and the soft-grip end cap feels good in your hand.

- All-aluminum construction
- Handle measures 60 in. long and 1 1/4 in. diameter

MODEL NO.	SIZE (IN.)	TYPE
G06939	19 1/2 x 4	Without Hook

## Steel Concrete Placer

The heavy-duty 12-gauge cold-rolled steel blade of our steel concrete placer allows you to achieve the proper working angle, which makes grading, smoothing, and spreading concrete effortless. A sturdy steel ferrule keeps the blade securely in place.

- High-strength welded construction
- Hardwood handle measures 54 in. long

MODEL NO.	SIZE (IN.)	TYPE
G16119	19 7/8 x 4	With Hook

## Magnesium Bull Float

Our lightweight magnesium bull float is crafted with special reinforcement ribs for added strength to prevent warping. The all-magnesium construction prevents concrete from clinging to the float, helping you achieve a smoother slab and a better finish.

- Properly curved face is honed to prevent snagging
- Blade only – no brackets included

MODEL NO.	SIZE (IN.)
G06184	48 x 8

## Hustler Tilting Bull Float Bracket

Our hustler tilting bull float bracket is constructed of rugged-yet-lightweight aluminum, and has a large protected grease reservoir that ensures easy control adjustment and smooth operation.

- Blade pitch controlled by turning the handle
- Fits all two- and four-hole bull floats and multi-mount fresnos without an adapter

MODEL NO.	SIZE (IN.)
G06186	1 5/8

## Hustler Chain Bull Float Bracket

Our hustler chain bull float bracket is made from sturdy, lightweight aluminum with a reinforced nylon base. Its large protected grease reservoir guarantees easy control adjustment and smooth operation.

- Fits all two- and four-hole bull floats and multi-mount fresnos without an adapter
- Blade pitch controlled by turning the handle

MODEL NO.	SIZE (IN.)
G16290	1 5/8

## 36 in. Round End Fresno Trowel

Our 36 in. round end fresno trowel eliminates marking and gouging for the perfect finish. The blade is made of heavy-gauge high-carbon steel, and its 360-degree all-angle bracket gives you increased flexibility as you work at any angle.

- Riveted steel mounting for high strength and durability
- Accepts bull float handle and clevis wood handle from Goldblatt (G06957 and G16283), as well as various handles from other manufacturers

MODEL NO.	SIZE (IN.)
G06970	36 x 5

## Posi-Lock Four-Hole Bull Float Bracket

Our sturdy cast-aluminum posi-lock four-hole bull float bracket allows you to lock the handle of your bull float at the best angle for your job.

- Screw kit included

MODEL NO.	SIZE (IN.)
G06053	1 5/8
G16677	1 3/4

## 1 3/8 in. Clevis to Button Handle Adapter

Our 1 3/8 in. clevis to button handle adapter allows you to lock tool handles in any position within a 180-degree sweep for ease of use. Simply turn the handle clockwise to lock it in position and counterclockwise to unlock.

- Fits any tool with a post-type connector, such as edgers, groovers, fresnos, and bull floats

MODEL NO.	SIZE (IN.)
G06182	1 3/8

## Aluminum Swaged Button Handle

Our aluminum swaged button handle includes an easy-to-connect snap spring that securely locks the handle in place.

- Long-lasting lightweight aluminum alloy construction

MODEL NO.	SIZE (IN.)
G16289	72 x 1 3/4
G16334	72 x 1 3/8

**CAUTION:** Aluminum handles should not be used near electrical wiring.

## Aluminum Thread Extension Handle

Our aluminum thread extension handle is made of a rugged-yet-lightweight aluminum alloy, so you can count on it to last. Heavy-duty steel machined thread plugs in each end ensure an extra-secure fit.

- Fits Goldblatt bull float and fresno trowel threaded brackets, as well as threaded brackets from other manufacturers

MODEL NO.	SIZE (IN.)
G06957	72 x 1 3/4

**CAUTION:** Aluminum handles should not be used near electrical wiring.

## Thread to Snap-In Adapter

Our thread to snap-in adapter is constructed of high-grade aluminum and features a thread to snap-in handle to positively lock the handle in place.

MODEL NO.	SIZE (IN.)	DESCRIPTION
G16282	1 3/4	Male
G16346	1 3/8	Male

**CAUTION:** Aluminum handles should not be used near electrical wiring.

## Cast Magnesium Float

Our magnesium float gives you the floating action and feel of a wood float due to its fine, hard, dense grain structure – but in a lighter and more durable design. The cast magnesium broken-in alloy blade features rounded edges and is engineered for proper balance.

- Cast construction provides more knuckle clearance
- Use with a 72 in. aluminum bull float handle from Goldblatt (G06957); also works with handles from other manufacturers

MODEL NO.	SIZE (IN.)	HANDLE
G06431	16 x 3 1/2	Red / Soft Grip
G06150	16 x 3 1/2	Tan / Wood

## Thin Line Cast Magnesium Float

Tackle the tight spots with our thin line cast magnesium float. Made from the finest cast magnesium, this float features ends that have been beveled down to 3/16 in. to fit any space.

- Broken-in blade and rounded corners
- Proper handle position gives the float perfect balance

MODEL NO.	SIZE (IN.)
G06050	16 x 3

## Extruded Magnesium Float

Our high-strength extruded magnesium float features a broken-in blade and a beveled end with rounded corners to ensure a smooth finish.

- Proper handle position gives the float perfect balance

MODEL NO.	SIZE (IN.)
G06960	16 x 3 1/4

## Extruded Round End Magnesium Float

The rounded corners of our extruded round end magnesium float reduce gouging, which helps you achieve a smooth, even finish in less time with less effort.

- High-strength extruded magnesium blade
- Proper handle position gives the float perfect balance

MODEL NO.	SIZE (IN.)
G06434	16 x 3 1/4

## Extruded Aluminum Float

The design of our extruded aluminum float includes a broken-in blade and beveled end with rounded corners to help you achieve the smooth finish you demand.

- Proper handle position gives the float perfect balance
- High-strength extruded aluminum alloy blade

MODEL NO.	SIZE (IN.)
G06189	15 1/2 x 3

## Pro Wood Float

Our pro wood float is constructed of select hardwood to ensure strength and durability – and is a great choice when working stiff concrete or concrete that’s setting too hard.

- Proper handle position gives the float perfect balance

MODEL NO.	SIZE (IN.)
G06962	12 x 5

## Rubber Float

The natural foam rubber pad of our rubber float is ideal for creating the perfect stucco finish. The pad is securely cemented to high-strength aluminum backing to ensure durability.

- Ergonomic soft-grip handle for easy floating action
- Available for coarse- or fine-textured surfaces

MODEL NO.	SIZE (IN.)	FINISH
G06042	12 x 4	Coarse
G06967	12 x 4	Fine
G06965	9 x 4	Coarse
G06041	9 x 4	Fine

## Foam Float

When you need to create a variety of different surface textures, reach for our foam float. The coarse green foam pad is securely cemented to high-strength aluminum backing, so you can depend on it, job after job.

- Ergonomic soft-grip handle for easy floating action

MODEL NO.	SIZE (IN.)
G06968	12 x 5
G06043	9 1/2 x 4

## Molded Rubber Float

Our molded rubber float is the right choice if you need to prepare a surface for troweling. The rubber pad offers a very dense texture and is cemented securely to high-strength aluminum backing.

- Ergonomic soft-grip handle for easy floating action

MODEL NO.	SIZE (IN.)
G06964	9 x 4

## Heavy-Duty Kneeler Board

Our large heavy-duty kneeling board cushions and supports your knees while finishing concrete, laying tile or carpet, making auto repairs, or performing a variety of other jobs. The soft pad is 1 1/2 in. thick and made from high-density EVA to provide comfort and ensure durability.

- Tray is made from durable, lightweight polypropylene
- Extra-large ergonomic soft-grip handles

MODEL NO.	SIZE (IN.)
G06966	18 7/8 x 13 5/8

## Wire Twister

Our wood-handled wire twister makes twisting wire bar ties fast and easy – just two to three twists and you’re done.

- Heavy-duty hook is electroplated for corrosion resistance
- Contoured hardwood handle

MODEL NO.	DESCRIPTION
G06969	Wire twister

## Concrete Broom

Our versatile concrete broom is the right choice for applying nonslip finish or sweeping floors. The 3 in. bristles are set securely in a heavy-duty hardwood block, so you can rely on our broom to get the job done right.

- Standard broom threaded holes included

MODEL NO.	SIZE (IN.)
G06955	24

## **DRYWALL TOOLS**

Drywall experts demand perfect joints, every time. And by using Goldblatt tools, it's easier to impress your customers with a great-looking job. Our wide range of high-quality drywall tools will help you create smoother walls and get your work done more efficiently. Browse through our products today and find everything you need for your next drywall project.

## Soft-Grip Flex Putty and Joint Knives

Our soft-grip flex putty and joint knives feature premium ground spring steel blades for proper flexibility and feel, so you can achieve perfect feathering and finishing. The blades extend through the entire length of the handle for added strength and durability. Our knives allow you to apply compounds or smooth and tape drywall seams with ease.

- Comfortable soft-grip handle reduces fatigue
- Optional rugged hammer end for setting popped nails and screws

MODEL NO.	SIZE (IN.)	HANDLE
<b>SPRING STEEL</b>		
G05272	6	Red / Soft Grip / Hammer
G05270	4	Red / Soft Grip / Hammer
G05268	3	Red / Soft Grip / Hammer
G05266	2	Red / Soft Grip / Hammer
G05264	1 1/2	Red / Soft Grip / Hammer
<b>STAINLESS STEEL</b>		
G05011	6	Red / Soft Grip / Hammer
G05012	4	Red / Soft Grip / Hammer

## Nylon Grip Flex Putty and Joint Knives

Our nylon grip flex putty and joint knives feature a full-tang blade that extends the entire length of the rugged solvent-resistant nylon handle to deliver strength and durability. The blade is constructed of tempered and polished taper-ground steel.

- Heavy-duty zinc alloy hammer end for setting popped nails and screws

MODEL NO.	SIZE (IN.)	HANDLE
<b>SPRING STEEL</b>		
G05013	6	Black / Nylon / Hammer
G05014	4	Black / Nylon / Hammer
G24123	3	Black / Nylon / Hammer
G24122	2	Black / Nylon / Hammer
G24121	1 1/2	Black / Nylon / Hammer
G05061	6	Black / Nylon / Hammer
G05059	4	Black / Nylon / Hammer
G05058	3	Black / Nylon / Hammer
G05057	2	Black / Nylon / Hammer
G05056	1 1/2	Black / Nylon / Hammer
<b>STAINLESS STEEL</b>		
G24226	6	Black / Nylon / Hammer
G24224	4	Black / Nylon / Hammer

## Soft Handle Stiff Paint Scraper

Our soft handle stiff paint scraper features a premium tempered spring steel stiff blade that helps make scraping paint and removing putty faster and easier. The comfortable soft-grip handle reduces fatigue, so you can work longer to get the job done.

- Heavy-duty zinc alloy hammer end for setting popped nails and screws
- Full-tang blade extends the entire length of the handle for added strength and durability

MODEL NO.	SIZE (IN.)	HANDLE
G05067	3	Red / Soft Grip / Hammer
G05066	2	Red / Soft Grip / Hammer
G05065	1 1/4	Red / Soft Grip / Hammer

## Nylon Handle Stiff Paint Scraper

Our nylon handle stiff paint scraper has a full-tang blade that extends the entire length of the rugged solvent-resistant nylon handle to ensure you'll keep using this tool for years to come.

- Tempered and polished spring steel blade
- Heavy-duty zinc alloy hammer end for setting popped nails and screws

MODEL NO.	SIZE (IN.)	HANDLE
G24107	3	Black / Nylon / Hammer
G23105	2	Black / Nylon / Hammer
G05062	1 1/4	Black / Nylon / Hammer

## Soft-Grip Painters Tool

Our 9-in-1 soft-grip painters tool tackles multiple jobs – from opening paint cans to applying putty to scraping flat, concave, and convex surfaces with ease. The comfortable soft-grip handle reduces fatigue and the premium stainless steel blade ensures years of use.

- Heavy-duty zinc alloy hammer end for setting popped nails and screws
- Full-tang blade extends the entire length of the handle for added strength and durability

MODEL NO.	DESCRIPTION	HANDLE
G05015	9-in-1 multi tool	Red / Soft Grip / Hammer

## Nylon Handle Painters Tool

Our 6-in-1 nylon handle painters tool includes a full-tang stainless steel blade that extends the length of the sturdy solvent-resistant nylon handle. Use it for effortless paint scraping, can opening, putty removal, and more.

- Heavy-duty zinc alloy hammer end for setting popped nails and screws

MODEL NO.	DESCRIPTION	HANDLE
G05834	6-in-1 multi tool	Black / Nylon / Hammer

## Bent Scraper

Our bent scraper can be connected to any standard broom handle, so you can tackle any job, anywhere. The hardened and tempered stainless steel blade is strong and durable, so you'll have this tool in your bag for a long time.

- Extra-large soft-grip handle for more comfortable use
- Heavy-duty metal striking end
- Full-tang blade extends the entire length of the handle for added strength and durability

MODEL NO.	SIZE (IN.)	HANDLE
G02729	3	Red / Soft Grip / Hammer

## Blue Steel Taping Knife

Our premium tempered flexible blue steel blade offers excellent control when feathering or creating knockdown texturing. The full-tang blade extends the entire length of the handle for added strength and durability. The heavy-duty aluminum backer plate provides rigidity and is well balanced for ease of use.

- Tapered blade allows you to run corners faster
- Comfortable soft-grip handle

MODEL NO.	SIZE (IN.)	HANDLE
G05003	14	Red / Soft Grip
G05004	12	Red / Soft Grip
G05005	10	Red / Soft Grip
G05006	8	Red / Soft Grip
G05007	6	Red / Soft Grip

## Stainless Steel Taping Knife

Our premium tempered non-rust stainless steel blade includes a heavy-duty aluminum backing plate for improved rigidity and is tapered for running corners faster to get the job done sooner.

- Comfortable soft-grip handle reduces fatigue
- Heavy-duty zinc alloy hammer end

MODEL NO.	SIZE (IN.)	HANDLE
G05644	14	Red / Soft Grip / Hammer
G05642	12	Red / Soft Grip / Hammer
G05640	10	Red / Soft Grip / Hammer
G05638	8	Red / Soft Grip / Hammer
G05636	6	Red / Soft Grip / Hammer

## Mud Pan Soft Grip

Keep steel mud pans in place with our mud pan soft grip. The strong magnet ensures that any size steel mud pan stays secure, while the soft anti-slip grip feels comfortable in your hand.

- Withstands temperature variations

MODEL NO.	SIZE (IN.)
G05020	7 x 7 1/2

## Aluminum Hawk

Our aluminum hawk is designed with a grain finish and circular grooves to prevent material from sliding, so jobs go more quickly and smoothly. Constructed of tempered heavy-gauge hard-rolled aluminum with smooth edges and round corners to prevent injury.

- Sponge-rubber callus preventer included

MODEL NO.	SIZE (IN.)	HANDLE
G05031	13 x 13	Red / Soft Grip

## Stainless Steel Heli-Arc Welded Mud Pan

Our stainless steel heli-arc welded mud pan is made from heavy-gauge stainless steel with sheared sides to make cleaning knives easier. Heli-arc welding creates smooth, seamless inside corners that reduce drywall mud buildup.

- Tapered ends and sides
- Watertight design

MODEL NO.	SIZE (IN.)
G05225	14
G05224	12

## Stainless Steel Spot Welded Mud Pan

Our stainless steel spot welded mud pan is made from heavy-gauge stainless steel for extra durability and has tapered ends and sides with mud-tight seams for peace of mind.

- All sides are sheared to clean knives easily

MODEL NO.	SIZE (IN.)
G05018	14
G05019	12

## Radial Drywall Sander

The fast free-spinning head of our radial drywall sander works with all 9 in. hook-and-loop sanding disks. With this sander, you can feel confident there will be no flipping or ripping – and no need for expensive rework.

- Includes adapter to fit any standard extension pole (pole not included)

MODEL NO.	DESCRIPTION	SIZE (IN.)
G25638	Radial drywall sander	9

## Radial Sanding Disks

Use our hook-and-loop radial sanding disks with our radial drywall sander to ensure quick and easy changeouts, saving you time and effort. The aluminum oxide grit is anti-wear and long-lasting.

- Works with most 9 in. radial drywall sanders

MODEL NO.	GRIT	QUANTITY
G25660	80	10
G25661	100	10
G25662	120	10
G25663	150	10
G25664	180	10
G25665	220	10

## Universal Pole Sander Adapter

Our universal pole sander adapter for drywall sanders fits any standard extension pole.

**MODEL NO.**

G25639

## Pro Pole Hand Sander

Our pro pole hand sander has an anti-flip-designed universal joint with a low center of gravity to ensure firm, steady motions when sanding. The reinforced die-cast aluminum base plate prevents bowing, and a quick-release clamp allows for fast sandpaper changes.

- 48 in. durable aluminum handle with steel cap for setting nails
- Soft-grip sleeve for extra comfort

**MODEL NO.**

G05022

**SIZE (IN.)**

9 1/4 x 3 1/4

## Pole Sander with Wood Handle

Our pole sander with wood handle is designed with an anti-flip universal joint and has a low center of gravity, so you can feel confident when sanding drywall. A quick-release clamp allows for quick sandpaper changes, and the reinforced die-cast aluminum base plate prevents bowing.

- 48 in. wood handle is high-strength and durable, yet lightweight

MODEL NO.	SIZE (IN.)
G05063	9 1/4 x 3 1/4

## Dust-Free Hand Sander

Reduce 90% of dust and mess with our dust-free hand sander. This lightweight drywall sander has several great features, including a 360-degree pivoting elbow for ease of use on vertical surfaces and an adjustable vent for variable vacuum force.

- Includes 6 ft. hose, coupler, and adapter for compatibility with most shop-type vacuums
- Designed for use with standard 11 1/4 in. die-cut sanding screen sheets

MODEL NO.	SIZE (IN.)
G05028	9 1/4 x 3 1/4

## Pro Hand Sander

Our pro hand sander is designed with reinforced tempered aluminum plating to provide extra durability, and its soft-grip handle increases your comfort and helps reduce fatigue.

- Screw clamp holds abrasive sheets firmly
- Use 11 1/4 in. die-cut or half sheet of standard sandpaper

MODEL NO.	SIZE (IN.)
G05023	9 3/8 x 3 1/8

## Drywall Rasp

The long-lasting anti-rust stainless steel blades of our drywall rasp remove more material per stroke than regular rasps, so you get the job done in less time with less effort. Our rasp will not clog or collect dust and works in both directions.

- Comfortable handle prevents fatigue

MODEL NO.	DESCRIPTION
G05026	Drywall rasp

## 3-in-1 Drywall Tool (Lifter/Rasp/Carrier)

Our 3-in-1 drywall tool functions as a lifter, rasp, and carrier to help you cut down on the number of separate tools you'll need to carry. This multi-functional tool can lift standard-sized drywall sheets and carry small sizes of drywall or plywood sheets.

- Nonclogging rasp with protective guides
- Lightweight and compact

MODEL NO.	DESCRIPTION
G05024	3-in-1 drywall tool

## Curved Blade Drywall Trowel

Our curved blade drywall trowel is equipped with a preshaped concave blade that helps you feather mud and create perfect drywall joints. The spring steel welded blade is heat treated and tempered for extra strength and durability.

- Anti-turn ergonomic soft-grip handle

MODEL NO.	SIZE (IN.)
G05511	11 x 4 1/2

## Outside Corner Tool

Our outside corner tool blade flexes to form a perfect 90-degree angle outside corners, making your job faster and easier. The premium tempered flexible stainless steel blade is corrosion-proof and long-lasting for years of dependability.

- Used to embed tape and smooth out the final layer of mud to taped corners
- Soft-grip handle provides added comfort

MODEL NO.	BLADE SIZE (IN.)
G05529	3 1/2 x 2 3/8

## Inside Corner Tool

Our inside corner tool makes it easier than ever to create perfect inside corners. The premium tempered flexible stainless steel blade is corrosion-proof and long-lasting, and it flexes to form a precise 90-degree angle for inside corners.

- Used to embed tape and smooth out the final layer of mud to taped corners
- Soft-grip handle provides added comfort

MODEL NO.	BLADE SIZE (IN.)
G05522	5 x 4
G05521	3 1/4 x 2 3/4

## Dry Tape Banjo

Our original dry tape Banjo® applies joint compound and joint tape at the same time, saving you time and money. Made of rugged lightweight aluminum, the Banjo holds up to 500 ft. of drywall tape and enough compound to tape 40 ft. before you need to refill.

- Adjustable side strap and thumb rest included
- Tape stays dry and is visible through the back

MODEL NO.	MAXIMUM TAPE LENGTH
G15301	500 ft.

## Wet Tape Banjo

Our original wet tape Banjo® allows you to apply mud and tape with just one hand. The rugged-yet-lightweight aluminum design includes a single chamber that holds up to 500 ft. of drywall tape and enough compound to tape 40 ft. before needing to be refilled.

- Easily adjustable valve controls how much compound is applied
- Adjustable side strap and thumb rest included

MODEL NO.	MAXIMUM TAPE LENGTH
G15302	500 ft.

## Circle Cutter

Our circle cutter creates perfect circles up to 16 in. in diameter in drywall. The hardened cutter wheel and center pin will remain perfectly sharp and steady for years to come.

- Measures accurately on the calibrated steel shaft
- Features standard and metric measurements in 1/4 in. and millimeters

MODEL NO.	DESCRIPTION
G05141	Circle cutter

## Drywall Tape Holder

Our drywall tape holder is constructed of galvanized steel and plated to prevent rust. It includes a handy belt clip for easy access.

- Pull wire for easy refilling
- Holds all standard tape rolls up to 500 ft.

MODEL NO.	DESCRIPTION
G05221	Drywall tape holder

## Clincher with Mallet

Create crisp corners every time with our clincher with mallet combo. One strike of the mallet against the clincher's stainless steel head and precision-ground teeth lets you crimp and center outside corner bead in no time.

- Cast aluminum body
- 24 oz. rubber mallet has comfortable wood handle

MODEL NO.	SIZE (IN.)
G15813	Corner bead 1 1/4

## Knockdown Knife

Our knockdown knife is ideal for creating professional drywall textures on walls and ceilings. The 24 in. wide blue steel blade is tempered for added strength, and the lightweight anodized aluminum handle helps reduce fatigue.

- Rubber grip ensures comfort
- Handle is 24 in. long

MODEL NO.	SIZE (IN.)
G05500	24

## Heavy-Duty Drywall Jab Saw

Our heavy-duty drywall jab saw has a triple-ground tooth design that lets you cut 50% faster than conventional saws. The hardened blade cuts in both directions for ease of use and features a sharpened tip for puncturing.

- Use on drywall, wood, plastic, and cement board
- Ergonomic soft-grip handle adds comfort and resists slipping

MODEL NO.	SIZE (IN.)
G20556	6

## Drywall Roll Lifter

Our drywall roll lifter raises boards at least 2 in. from the floor, allowing just one person to handle drywall raising and nailing at the same time. It's perfect for tight spaces, too.

- All-steel construction for added durability

MODEL NO.	DESCRIPTION
G15149	Drywall roll lifter

## Drywall Jab Saw

Our drywall jab saw features a sharpened tip for puncturing. The temper-hardened blade cuts in both directions to make sawing through drywall quick, precise, and easy.

- Ergonomic wood handle adds comfort and resists slipping
- Use on drywall, wood, plastic, and cement board

MODEL NO.	SIZE (IN.)
G05143	6

## Crow's Foot Texture Brush

Our crow's foot texture brush features flattened bristles that are ideal for creating crow's feet and other textures on walls and ceilings. Durable Tampico fiber bristles offer the fine, smooth texture you desire.

- Threaded; accepts standard 3/4 in. (19 mm) broom handle and extension poles
- Can be handheld or pole mounted

MODEL NO.	TYPE
G05260	Single crow's foot texture brush
G05261	Double crow's foot texture brush

## Texture Brush

Use our texture brush to create a variety of textured patterns with ease. The bristles are made with gray flared horsehair and polypropylene for softness and strength.

- Threaded; accepts standard 3/4 in. broom handle and extension poles
- Block with molded hand grip

MODEL NO.	DESCRIPTION
G05116	Texture brush

## Repair Patch

Our easy-to-install repair patch is made from a self-adhesive fiberglass mesh that quickly holds the patch in place, allowing you to repair walls and ceilings quickly and easily.

- Rustproof aluminum base

MODEL NO.	DESCRIPTION	SIZE (IN.)
G15215	2 pack	4 x 4
G15220	4 pack	6 x 6 (1), 4 x 4 (1), 2 x 2 (2)
G15225	2 pack	8 x 8

## One-Piece Drywall Hammer

Our one-piece drywall hammer features a solid forged steel shaft with a fully polished and milled face, as well as a notched hatchet end for pulling nails. The ergonomic anti-vibration handle minimizes shock at impact, so you can work longer and still feel comfortable.

- Ideal for installing drywall or gypsum board

MODEL NO.	SIZE (OZ.)
G05027	14
